

25th IAA 360° Webinar

FEMORAL STEMS IN PRIMARY & REVISION TOTAL HIP ARTHROPLASTY - BIOLOGY, METALLURGY, & PHILOSOPHY

March 17, 2022, Thursday

07:30 pm - 09:30 pm (IST)

02:00 pm - 04:00 pm (GMT)

10:00 pm - 12:00 pm (SGT)

01:00 am - 03:00 am (AEST)

N Rajkumar
Secretary

Rajeev K Sharma
President

Abhay Elhence
Convener

Conservative femoral revisions - preserving today for a better tomorrow

Chris Wilson, Australia

Soft tissue balancing in Total Hip Arthroplasty - the subtle art

Pradeep Poonnoose, India

Impaction bone grafting of the femur - simplifying the complex reconstruction

Bodo Purbach, United Kingdom

Case based Panel Discussion

Case 1: SRM in type 2/3 defects

Shahid Noor, Pakistan

Case 2: Modular vs Non-Modular stems

N Rajkumar, India

Case 3: Cemented stems in revision for periprosthetic fractures - Evidence not anecdotal results.. ?

Mehool Acharya, United Kingdom

Case 4: Cylindrical fully coated vs Conical fluted tapered stems - Does the taper matter.. ?

Darren Tay, Singapore

Case 5: Mega prosthesis for type 4 defects - real solution or glorified salvage.. ?

Rajeev K Sharma, India

Algorithm for choice of femoral stem - road to salvation

Evert Smith, United Kingdom
